B-LED26GR4016W-D

Balanced full spectrum light enhances vegetation budding and flowering in plants.

Emits spectrum wavelengths between the desired 450nm blue and 660nm red required for photosynthetic response.

FEATURES

LED BR40

- Long life bulb
- Rated for high humidity
- Low heat & low energy
- Suitable for damp locations
- Dimmable

SPECIFICATIONS

- 15.5 Watts
- 120V
- 1300K
- E26 Base
- 15,000 Life Hours
