

GE® 2.5 Gallon Electric Point of Use Water Heater Model# GE02P08BAR

FEATURES

Power Cord Length	6' Included
Controls	Mechanical Temperature Control
Max. operating pressure (psi)	150
Temp & Pressure Relief Valve	Top
Rated Capacity	2.5gal
Height Description	Point of Use
Heating Element	Stainless steel
Fuel Type	Electric
Configuration	Space Saver
Installation Location	Indoor
Product Type	Electric Point Of Use
Water Connection Location	Top
Point of Use	Yes
Anode Rod	Aluminum
Temperature Setting	70-140° F Range

- Point of Use - Installs on-location for hot water where you need it
- Compact Design - Ideal in limited spaces like kitchens, bathrooms, laundry rooms, cabins, RVs, garages, sheds, etc
- 120 Volt - Connects into any 120-Volt supply
- Hot Water Booster - Works as a standalone unit, or inline with another water heater to boost long pipe runs or washing machines
- Stainless Steel Heating Element - Provides reliable heat with ultra-durable design that resists rust and corrosion
- Anode Rod - Durable design extends the life of your water heater with long-lasting protection against corrosion
- Intuitive Controls - Easily adjust water temperature and power at the turn of a knob
- Built-To-Last Warranty - 8-year limited replacement warranty
- Easy Installation - Uses standard 1/2-in NPT water connections for simple installation
- Adjustable Thermostat - Easily change temperatures to your desired settings
- Wall or Floor Mounted - Compact, space-saving design can be mounted on the wall or floor
