## ZONELINE® VERTICAL SERIES

### PRODUCT AND ACCESSORIES GUIDE

**AIR&WATER**  
SOLUTIONS

ZONELINE® UltimateV12™

The GE Zoneline® UltimateV12™ brings a new level of intelligence and performance to our user friendly line of Vertical Terminal Air Conditioners.

The UltimateV12 is the next generation of VTAC featuring Inverter Technology and Adjustable Speed Makeup Air, enabling controlled and precise performance in a broad range of applications.

GE Appliances Vertical Terminal Air Conditioners have achieved the latest energy efficiency DOE industry requirements.

**Zoneline VTAC FACT:**

**RAK190V  
2-WAY COMMUNICATION**

The variable speed design of this system paired with the RAK190V 2-Way Communication Thermostat provides the ultimate control. This unit maintains temperature at slower running speeds, which results in the ultimate sound and energy performance.

12-INNOVATIVE FEATURES

1 INSTA-PLATFORM™

2 SELF-CONTAINED DRAINAGE SYSTEM

3 FAST-CONNECT PLUMBING

4 SELF-ALIGNING, LOCK-IN-PLACE SYSTEM

5 QUICK-INSTALL PLENUM

9 ONBOARD DIAGNOSTICS

10 SmartHQ™ WIFI CAPABILITY

6 ULTRA-QUIET

7 REVERSE CYCLE DEFROST

8 CORROSION PROTECTION

11 INVERTER TECHNOLOGY

12 ADJUSTABLE SPEED MAKEUP AIR

**Zoneline VTAC FACT:**  
**SAVE 60% ON INSTALLATION TIME\***  
Complete installation from the interior makes installation 60% faster!

\*Compared to Friedrich Vert-I-Pak models or GEA AZ91 series models, including installing and building a platform.

## ZONELINE® VERTICAL SERIES FEATURES AND BENEFITS

### INSTA-PLATFORM™

Eliminates the need for on-site customized platform construction saving time and money.

### SELF-CONTAINED DRAINAGE SYSTEM

Easy installation allows for simple chassis removal while leaving plumbing completely intact.

### FAST-CONNECT PLUMBING

Allows preliminary plumbing to be installed outside the closet and prior to installing the chassis.

### SELF-ALIGNING LOCK-IN-PLACE SYSTEM

The Insta-Platform and the VTAC are self-aligning with a lock-in-place system ensuring the unit is engaged with the plenum gasket.

### QUICK-INSTALL PLENUM

Plenum is easily installed from the interior without the need for exterior building access. Caulking is required. It conveniently expands from 8" to 15" for a custom fit.

### ULTRA-QUIET

Delivers quiet cooling power with smooth sound for a good night's sleep.

### REVERSE CYCLE DEFROST

Advanced defrost capability allows for extended heat pump operation down to 25° F for V10, down to 0° F for V11 & V12.

### CORROSION PROTECTION

Exclusive rust-proof basepan and bulkhead provide another level of corrosion protection.

## ZONELINE® VERTICAL SERIES FEATURES AND BENEFITS

### ONBOARD DIAGNOSTICS

Electronic controls give clear and fast diagnostics data and fault codes, for fast and easy resolution.

### SMARTHQ™WIFI CAPABILITY

Optional SmartHQ module\* gives property managers the ability to monitor multiple units remotely, enhancing guests' experience. Learn more at [smarthqsolutions.com/management](https://smarthqsolutions.com/management). SmartHQ Management subscription required.

### INVERTER TECHNOLOGY (UltimateV11 and UltimateV12 models)

Variable speed operation provides an advantage with shorter recovery time, improved efficiency, sound quality and dehumidification. Consistent room temperature allows for total room comfort.

### ADJUSTABLE SPEED MAKEUP AIR (UltimateV12 models only)

Makeup air and customizable variable speed fan technology provide the precise airflow for specific applications. For energy savings, Makeup air delivery can be cycled based on occupancy, using a compatible occupancy detecting thermostat.

### ENERGY EFFICIENT (all VTAC models)

The U.S. Department of Energy (DOE) enacted new energy efficiency requirements for residential and commercial air conditioners and heat pumps.

GE Appliances' VTAC Series meets the new industry metrics for SEER2, EER2 and HSPF2 standards.

\*SmartHQ module part number PBX23W00Y0, PBX23W00Y1 or SHCM10PK (10 Pack).

# INVERTER TECHNOLOGY THE REASONS WHY

UltimateV12 and UltimateV11 models only

Inverter Technology is the latest innovation in Zoneline Vertical Terminal Air Conditioning. By enabling variable speed operation, it improves:

- **Temperature Recovery Time**—ensuring occupant comfort by quickly reaching the desired setpoint temperature
- **Efficiency**—aligns compressor output to room needs thereby reducing energy consumption
- **Low Ambient Heat Pump**—the variable speed compressor and advanced defrost capability allows for the best in heat pump operation down to 0° F
- **Two-Way Thermostat Capability**—advanced thermostat communication allows for true compressor speed control and adjusts cooling & dehumidification outputs to precisely match room needs
- **Sound Quality**—operates at slower speeds longer and smoothly changes speed to avoid abrupt start-ups
- **Dehumidification**—with 3 selectable levels of enhanced dehumidification, it maintains comfortable room conditions using variable speed to reduce humidity, even in challenging environments

## UltimateV11, and V12 HEAT PUMP SAVINGS

- COP2 = 3.5 and HSPF2 = 7.6
- Heat Pump operates down to 0° F
- Minimizes use of costly back-up heat

# ADJUSTABLE SPEED MAKEUP AIR

## MAKEUP DUCT INLET FAN

Open

Closed

UltimateV12 models only

A dedicated variable speed fan allows for the delivery of room specific volumes of conditioned Makeup air of up to 70 CFM.

The RAK190V thermostat provides the ability to achieve energy savings by cycling Makeup air based on occupancy status.

The RAA13V is an optional MERV 13 filter that reduces dust, pollen, mold, bacteria, viruses and other airborne pathogens from entering the room. It provides cleaner Makeup air to improve overall indoor air quality, with easy access from the front side of unit.

## ADJUSTABLE SPEED MAKEUP AIR

NOTE: V12 models are not recommended for installation within two miles of coastal areas.

ZONELINE® UltimateV11™

The UltimateV11 is the next generation of VTAC featuring Inverter Technology enabling controlled and precise performance in a broad range of applications.

The UltimateV11 has achieved the energy efficiency DOE industry requirements.

**Zonline VTAC FACT:**  
**SAVE 60% ON INSTALLATION TIME\***  
*Complete installation from the interior makes installation 60% faster!*

- 1 INSTA-PLATFORM™
- 2 SELF-CONTAINED DRAINAGE SYSTEM
- 3 FAST-CONNECT PLUMBING
- 4 SELF-ALIGNING, LOCK-IN-PLACE SYSTEM

ZONELINE® UltimateV10™

The UltimateV10™ is the industry's first VTAC that can be installed completely from the interior. It features a one-piece **Insta-Platform™** eliminating the need for on-site construction. Ultra-quiet operation adds to overall room comfort.

**Zonline VTAC FACT:**  
**SAVE 60% ON INSTALLATION TIME\***

ACCESSORIES

The GE Zoneline® VTAC Series system requires a set of essential accessories for proper operation.

**RAK160W2**  
**Wireless Thermostat**  
Compatible with V10 models

**RAK149F2**  
**Non-programmable Thermostat**  
Compatible with V10 models

**RAK150VF2**  
**2-STAGE COOL/HEAT THERMOSTAT**  
Compatible with V11 and V12 models

**RAK180W1**  
**Wireless Energy Management Thermostat**  
Compatible with V10 models

**RAK149P2**  
**Programmable Thermostat**  
Compatible with V10 models

**RAK190V**  
**2-WAY ENERGY MANAGEMENT THERMOSTAT**  
Compatible with all models

**RAA13V**  
**MERV 13 FILTER**  
(Optional, UltimateV12)

**18"x20"x1" FILTER INCLUDED WITH UNIT CHASSIS**

**POWER CONNECTION**

**WALL PLENUM RAVWPT9, RAVWPT15**  
UltimateV10, V11

**ACCESS PANEL WITH RETURN GRILLE (RAVRG4)**  
Cutout: 28-1/8"W X 55-7/8"H

**INSTA-PLATFORM™ (RAVDPLAT)**

**WALL PLENUM RAVWPT15B**  
Cutout: 24"W X 40"H  
UltimateV12

**GRILLE (RAVAL3)**  
UltimateV10, V11

**GRILLE (RAVAL4)**  
UltimateV12

COMPLETE ACCESSORY LIST (Must be ordered separately)

KIT NUMBER	DESCRIPTION
RAK149F2	Non-ProgrammableThermostat-For V10 models only
RAK149P2	ProgrammableThermostat-For V10 models only
RAK150VF2	Two Fan Speed Thermostat for Two Stage Compressor-For V11 and V12 models only
RAK160W2	Wireless Thermostat-For V10 models only
RAK180W1	Wireless Energy Management Thermostat-For V10 models only
RAK190V	Two Way Communicating, Occupancy Detection, Energy Management Thermostat (All models)

THE SELMER STORY

BUILDING SOMETHING GREAT

GE Appliances has expanded its production of VTAC product in 2021, with a 5-million-dollar investment and adding positions to the plant in Selmer, TN.

The goal is to provide vital solutions to the current environment and overall air quality. Adding break through Inverter Technology and Makeup Air improves efficiency and energy usage. SmartHQ™ WiFi connection and quick diagnostic capabilities heighten the owner and guest experience.

Designed, engineered and assembled in the U.S., ZONELINE® VTACS are manufactured with a one purpose in mind—*building something great!*

OUR STORY

*“Every VTAC that leaves Selmer is built with precision and pride.”*

*“Building and assembling the Vertical Zoneline is my contribution to improving air quality and the environment.”*

PROVIDING SUPPORT

Todd Allen  
Commercial Trainer, Zoneline

The UltimateV12™ and UltimateV11™ are the next generation of GE Appliances’ VTAC innovation. As the only Vertical Terminal Air Conditioner in the industry providing complete installation from the interior, we’ve taken it to the next level by introducing Inverter Technology. This enables both owners and guests to enjoy the comforts and benefits, by maintaining shorter recovery time and precise temperature control—providing efficient cooling across all climate conditions.

We provide the latest information about Zoneline product through training materials and videos. Knowledge through training is key in conveying our message and positioning our product as the Ultimate owner & guest experience.

Sincerely,  
Todd Allen

## WARRANTY

- 1 **From Date Of Original Purchase** Any part of the air conditioner which fails due to a defect in materials or workmanship. During this **limited one-year warranty**, GE will provide, free of charge, all labor and related service costs to replace the defective part.
- 5 **From Date Of Original Purchase** Sealed Refrigerating System - if any part of the Sealed Refrigerating System (the compressor, condenser, evaporator, and all connecting tubing, including the makeup air system) should fail due to a defect in materials or workmanship. During this **limited five-year warranty**, GE will provide, free of charge, all labor and related service costs to replace the defective part.
- 2-5 **From Date Of Original Purchase** Fan Motors, Switches, Heater, Heater Protectors, Compressor Overload, Solenoids, Circuit Boards, Auxiliary Controls, Thermistors, Freeze Sentinel, Frost Controls, Pump, Capacitors, Varistors and Indoor Blower Bearing, if any of these parts should fail due to a defect in materials or workmanship. During this **additional four-year limited warranty**, GE will provide the replacement part free of charge. The customer will be responsible for any labor and related service costs.
