

Portable Cooling Units

J&D Manufacturing's Portable Cooling Units combine the cooling effect of high velocity air with a temperature dropping misting/fogging adapter to create a feeling of up to a 30°F temperature drop.

Perfect for indoor and outdoor needs, these units provide a portable relief station.

Features

Fan

- High output direct drive performance
- Oscillation range of 93°
- Fans are certified UL507 indoor/outdoor fans
- Corrosion-resistant, powder coated fan guards meet OSHA 1910.212(a)(5) requirements
- Totally enclosed, maintenance-free, high-efficiency fan motors have completely sealed ball bearings, are UL and CUL recognized, and are covered by a **1 Year Warranty**

**Fully
Assembled**

Misting System

- Each nozzle can be independently swiveled or shut off allowing finite control over the amount and location of the mist created
- Enclosed 60 PSI pump provides the pressure needed to create a fine cooling mist
- Pump mounted out of view and secured to frame below tank for easy access

Unit

- Separate fan and pump controls
- GFCI plug-in for additional safety
- Rugged 8" tires
- Comfort grip handles
- Large 22-gallon tank holds enough water to provide 5-8 hours of cooling mist
- Folds down for easy transportation and storage
- Tubular aluminum frame is light weight yet durable

Oscillating

Both models fold down for easy transportation and storage.

**Independent
Shut Off Nozzles**

**Independent Fan
& Mist Switches**
