

Smart Heating Solutions

SmartWave®

Carbon Fiber Heaters

Includes Remote Control

SmartWave® Series

Carbon Fiber Radiant Heater w/Remote Control

SmartWave carbon fiber radiant heaters transfer heat to people and objects without heating the surrounding air. Featuring CarbonIQ, carbon fiber elements, that produce high-output medium-wave infrared heat with a soft visible orange glow. SmartWave heaters are a great choice for outdoor patios and applications where high heat is required but less visible light is desired. Featuring an integrated built-in controller which you can select between heat levels or set a timer to only heat the space while you are using it. It's that easy. And with the simple hand-held remote control, comfort is always in the palm of your hand.

RK Models:

1 Lamp
1500W Hardwired or Plug-In
120V, 208V or 240V

RKX Models:

2 Lamp / 3 Lamp
3000W / 4500W Hardwired
208V or 240V

IPX5 Rated For Outdoor Spaces

SmartWave® Series

Carbon Fiber Radiant Heater w/Remote Control

- Instant Directional Infrared Heat
- Durable Spiral CarbonIQ Heating Elements Rated for 10,000 Hours
- High-Output Medium-Wave Type Lamps
- Built-In Electronic Controller with Up to 3 Heating Modes
- Timer
- Handheld Remote Control w/ Wall Holder
- Easy Install 0° to 45° Adjustable Wall/Ceiling Brackets or Chain Mount (Chain Not Included)
- Aircraft Grade Aluminum & Stainless Steel Construction for Maximum Corrosion Resistance
- Heats Objects Not the Surrounding Air
- IPX5 Rated For Indoor & Outdoor Applications
- Imported to King Specifications

RKX Models Add:

- RF Remote Control: Does Not Require Line Of Sight To Operate
- RF Remote Can Be Paired To Multiple Heaters Creating a Heating Zone
- LCD Position Sensor For Left Or Right Junction Box Mounting
- Permanent Timer Feature: Forces Timer Only Operation On Startup
- 24 Hour Auto-Shutoff Feature

WARRANTY

- 3-Year Limited Warranty on Fixture
- 1-Year Limited Warranty on Carbon Lamps

SmartWave

Featuring CarbonIQ, Spiral Carbon Fiber Elements

High-output medium-wave infrared heat energy with a soft visible orange glow. SmartWave heaters are a great choice for outdoor patios & applications where high heat is required but less visible light is desired.

Great for Outdoor Patios

SmartWave Offers the Easiest Installation of Any Radiant Heater on the Market

SmartWave

Modern Hex Grill Design – Simultaneously makes a bold statement & blends in with any décor

Durable, CarbonIQ Heating Elements – Rated for 10,000 hours

IPX5 Water-Resistant Rated

Electronic Control – With up to 3 Heating Modes & Timer Feature

Hand Held Control Included

What is CarbonIQ Heating Technology?

10,000 Hour Rated Durability

CarbonIQ infrared lamps are rated for up to an astounding 10,000 hours, producing a soft warm glow that produces more directional heat than traditional quartz heaters.

Instant Heat

Since there is little mass in properties of carbon fiber, CarbonIQ heating elements deliver instant heat, right when you need it.

More Heat with Less Visible Light

Utilizing the medium wave of the light spectrum, which is more effective at heating human skin, CarbonIQ producing a softer radiant heat which has a similar effect as the sun.

Benefits of the Spiraled Coil

The logic is simple. Our carbon fiber elements are formed into a light-weight spiraled coil, which absorbs the effects of thermal expansion and vibrations.

98% Efficient Heat Transfer Rate

Due to the excellent electrical and thermal conducting properties of carbon fiber, it's transfer rate from electricity to heat can reach 98%, which means almost no heat loss, saving valuable energy.

Create A Heating Zone & Control Multiple Heaters

Zone 1

***RKX Models Only**

A zoned heating system allows users to control multiple heaters in a single area or heating zone as a group. A single RF Remote can be paired to multiple heaters, so that all heaters in this zone will be synchronized to the controls established by that remote.

RF Remote

Radio Frequency Remote

(RKX Models Only)

Carbon Fiber Heaters

Heat Coverage Areas

Note: Indoor or well-protected environments will generally exceed average coverage areas. Heaters can provide less than average coverage in extremely cold/windy conditions.

RK Series Single Lamp Models

MODEL	UPC	DESCRIPTION	LAMPS	TYPE	VOLTS	WATTS	BTU/H	AMPS	WT. (lbs.)
RK1215-RMT-PLG-BLK	55383	24" Black, Carbon Lamp, 6 Ft Cord w/Plug & IR Remote	1	Plug-In	120	1,500	5,118	12.5	6.7
