

## HIGH-OUTPUT MEDIUM WAVE ELECTRIC HEATER

### Effectively heat almost any space with a variety of lamp and chassis options

The MEL Series is a high wattage, commercial-grade electric heater offering. A great choice for spot heating and outdoor patios, the MEL series can accommodate a wide variety of heating needs. Heaters are equipped with a specially designed reflector for optimal radiant heat output and optional wall mounting brackets allow adjustment of the heating direction.

High-output medium wave elements produce a mild white light while operating. Light is visible on walls and at the ground level, but is around 30% less bright than a typical short wave element. However, high-output medium wave elements have an output equal to their short wave counterparts, making them the preferred choice for spot heating, outdoor patios, and other applications where more heat is required but the short wave elements' intense brightness is not.

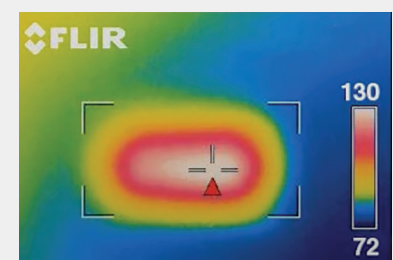

### Benefits Of Heating With Electric Infrared

- Superior Comfort
- Reduced Energy Consumption
- Durability
- Even Heat Distribution
- Outdoor Tested & Approved
- Long Lamp Life Expectancy

### Product Features

- High-end quality and compact, aesthetic design
- Black powder-coated housing
- Single, double, or triple lamp models
- Gold-colored anodized aluminum reflectors reduce light glare
- High temperature nylon louvered end caps

## Product Specifications

<b>Wattage Range</b>	750 to 11,400 Watts
<b>Mounting Options</b>	0° to 45° Adjustable Brackets Included
<b>Lamp Elements</b>	High-Output Medium Wave
<b>Housing</b>	Black Powder-coated Steel for Added Durability and Corrosion Resistance
<b>Certifications &amp; Approval</b>	UL Listed for Indoor & Outdoor Commercial, Outdoor Residential
<b>Limited Warranty</b>	1 year (All Components)

**Available in  
Single, Double  
and Triple Elements**

## High-Output Medium Wave Features

	MEL Elements
<b>Wavelength Type</b>	High-Output Medium Wave
<b>Available Chassis Lengths</b>	24", 33", or 46"
<b>Number of Elements</b>	1, 2, or 3
<b>Available Voltages</b>	120, 208, 240, 277, 480, 575
<b>Wattage Range</b>	1,360 to 9,600
<b>Element Type</b>	Woven Tungsten
<b>Element Color</b>	Clear
<b>Ideal Applications</b>	Spot heating, outdoor patios, and other areas where more heat is required but the brightness of the short wave is not.
<b>Brightness Level</b>	Medium
<b>Color</b>	Mild White
<b>Heat Speed</b>	Short
<b>Commercial / Industrial</b>	Indoor and Outdoor
<b>Residential</b>	Outdoor Only
<b>Recessed Mount Available</b>	Single Element, Double Element
