

A/C EXHAUST TILE & DUCT CEILING KIT

AN ALL-IN-ONE INDOOR AC EXHAUST GEAR SYSTEM

The wire helix and smooth interior on the exhaust duct create unrestricted airflow, so it's more efficient and quieter.

Manufactured using lightweight, tear and fire-resistant Polyethylene (PE) fabric that's easy to install, handle, and clean.

Paired with an innovative step flange design on the 12" ceiling tile makes storage, installation, and connection even easier.

GEAR POINTS:

Outwork. Outperform. Overachieve.

Ventilate hot air through a drop ceiling and keep temperatures down by providing cool, fresh air.

Highly durable PE fabric is resistant to tears. And wear strip prevents abrasive wear from perforating/damaging the duct.

Flame resistant, water repellent, mildew resistant. And advanced PE fabric also resists UV rays so it doesn't yellow over time.

The New QuickGrip collar secures quickly and efficiently, so no tools required.

Special coating and wire helix reduces friction and improves flow rate.

A/C EXHAUST TILE & DUCT CEILING KIT

- No tools needed! The QuickGrip collar secures to any HVAC unit quickly and efficiently
- Lightweight, tear-resistant Polyethylene (PE) fabric
- Duct has a smooth, efficient, and quiet airflow
- Available colors: White with white wear strip, or black with black wear strip.
- Deep flare in the step flange design creates a stronger anchor point for belted cuff ducts.
- Lock stitching minimizes wear and tear and creates a long-lasting duct.
- PE wear strip and duct stay bright and won't change color over time.
- Clean the duct easily with soap and water or pressure wash.
- UV-resistant chrome finish ensures a no-fade professional look, even after extensive use.
- Passes FR Testing to NFPA-701 certification.
- Exhaust tile made from rugged and flexible ABS material.
- Custom Options Available
