

THE PFG SERIES

Triangle's "PFG" series agricultural fans are designed to move and replace stagnant air in your buildings or to cool buildings in livestock applications. Our "PFG" series fans are offered in belt or direct drive models and have an all galvanized construction. The "PFG" Series is ideal for livestock applications, greenhouses and many others.

Features

- Rugged heavy gauge galvanized housing, frame and blade
- Galvanized welded bird screen on both front and back
- Rolled inlet venturi for efficient airflow
- Totally enclosed motor
- Single-phase fans are factory wired 230 volt and provided with a power cord with molded plug
- Three-phase models available
- Belt driven fans are designed with Triangle's "X-Wing" belt tensioner providing low maintenance and extending the life of the belt and motor

OPTIONAL TEMP CONTROL

Thermostat

TS-115/230-1

TS-115/230-1: Only compatible with single phase motors up to 1 HP

DIRECT DRIVE

- Rugged heavy gauge galvanized housing, frame and blade
- Galvanized welded bird screen on both front and back
- Rolled inlet venturi for efficient airflow
- Totally enclosed motors
- Consult factory for 115V models
