

Introducing

SPARTAN

Vector Climate's industry-disruptive mindset of "redefine, not redesign" has led our innovators and engineers to develop cooling technology that changes how people experience mobile cooling.

We believe in making a difference in the world, and Spartan, is designed to do just that.

Welcome to a new era of mobile evaporative cooling.

Fits 16"
Ducting

HEPA
Ready

Up to 25°
of Cooling

Spartan's intelligent cooling core utilizes the natural process of evaporation combined with industry-first technology to cool your surroundings with clean and fresh air.

We've incorporated intelligent sensors, internal filtration, and HEPA filtration capabilities to increase system longevity, cleanliness of the evaporative media, and to ensure maximum air quality.

Dimensions	72" x 48" x 30"
Air delivery	12,500 CFM
Velocity	40+ mph
Coverage	2,500 to 3,000 sq ft
Speeds	Variable (10 Speeds)
Oscillation range	70°
Water reservoir	60 G / 227 L
Power usage	100 to 1,000 W
Input voltage	120-240V
Utility frequency	50/60 Hz
Noise level	59 dB
Weight (empty)	375 lbs
